Position on Council Proposal 239.2000 Limiting Access by Minors to Violent Video Games

adopted May 3, 2000

The Marion County Alliance of Neighborhood Associations, Inc., wishes to offer its support to Council Proposal 239.2000.

In offering support of this proposal, McANA is not endorsing undue censorship of adult rights. Rather, we believe this ordinance to be an important first step in providing parents and our community as a whole with tools and motivation to protect children from the harmful developmental effects of second hand violence and exposure to sexual content inappropriate to their level of maturity.

Clearly, in promoting healthy communities, we must promote the health of children in their character and minds as well as their bodies.
