Position on the Proposed New Terrain Proposal Extending I-69 to Evansville

adopted May 3, 2000

(In response to substantial concern over the potential long-term and unnecessary impacts of the "New Terrain Proposal" on Marion County's and Indiana's neighborhoods and environment, the following position was adopted by MCANA's Board of Directors at its May 3, 2000 meeting.)

In support of Indiana's environment and its neighborhoods, the preservation of ever decreasing agricultural ground, and efforts to utilize existing infrastructure and committed land resources, The Marion County Alliance of Neighborhoods is in opposition to the proposed extension through Marion County of I-69 to the City of Evansville (known as the New Terrain Proposal.) We believe that fiscal and environmental reason dictates that other, more appropriate and less intrusive, alternatives can and should be explored and implemented in order to build a comprehensive inter-county transportation system which can serve the residents and businesses of our state well into the future.
